Background

Alisa Kroutikova is a director specializing in intellectual property at Elysium Digital. She has worked on over 30 matters, specializing in patent litigation, trade secrets, and software copyright.

Alice has programming experience with Python, Java, and C, as well as less common programming languages such as Smalltalk. Her work has spanned a variety of technical areas, including telecommunications, network traffic analysis, medical device software, and middleware applications. She applies her diverse skill set to many aspects of intellectual property litigation, including prior art searches, claim construction analysis, claim chart creation, in-depth source code analysis, and preparation of demonstratives and expert reports.

Alice holds a B.S.E. degree in computer science from Princeton University. Prior to joining Elysium Digital, Alice was a research assistant at Princeton University, working on a web scraping project to analyze newspaper reports of drug-related violence in Mexico. As an undergraduate at Princeton, she worked with Dr. Robert Dondero to create a customizable C style-checking tool for one of Princeton's introductory programming courses.
