

Gordon W. Brockway

Manager

(857) 294-2972
gordon.brockway@levelblue.com
53 State Street, Suite 2201
Boston, MA 02109

Background

Gordon has over three decades of technical experience in the software industry. Prior to joining Elysium Digital, he designed communication systems, radar systems, speech recognition software, and web site security software.

Gordon's work at Elysium Digital has included digital forensic analysis, strategic definition and comparison of copyrights and trade secrets, prior art analysis, claim construction analysis, claim chart creation, in-depth source code analysis, and preparation of demonstratives and expert reports. Gordon's technical areas of specific expertise include software and hardware for game systems, 3D graphics systems, mobile phones, enterprise data analysis systems, and security software.

Gordon holds a B.S. in electrical engineering from Tufts University and an MBA from F.W. Olin Graduate School of Business at Babson College, focusing on the intersection of business, technology, and law. Gordon holds a Global Information Assurance Certification (GIAC) as a GIAC Certified Forensic Examiner (GCFE).

Gordon served for six years as a member of the board of directors of the Concord Municipal Light Plant. Prior to that he served as the chair of the Comprehensive Sustainable Energy Committee for the Town of Concord in Massachusetts, where he promoted the adoption of cost-effective and environmentally sustainable energy technologies.
