1420 5th Avenue, Suite 1200
Seattle, WA 98101

Background

Grant Schowalter is a senior consultant specializing in intellectual property litigation at Elysium Digital.

Grant has worked on patent, trade secret, and copyright litigation cases. He has experience developing with the most-used programming languages including Python, Java, C, and Javascript. His work has spanned a wide range of technical areas including video stabilization, web payment platforms, airline travel, and mobile apps. Grant is experienced in analyzing complex source code, constructing detailed claim charts, and preparing trial demonstratives.

Grant graduated from James Madison University with a B.S. in computer science. Prior to joining Elysium, Grant worked as a research assistant on an autonomous vehicle research team. As a team member, he added pose and speech recognition systems to an experimental autonomous vehicle. Grant has also worked as a professional web designer and has experience in user tracking, data analytics, and statistical modeling.
