1420 5th Avenue #1200
Seattle, WA 98101

Background

Grant Schowalter is a consultant specializing in intellectual property litigation at Aon.

Grant recently graduated from James Madison University with a B.S. in computer science. During his time at James Madison, Grant mentored young students as a teaching assistant in a variety of technical courses. He later went on to become a research assistant working to add pose and speech recognition systems to an experimental autonomous vehicle currently under development at the university. Grant has also worked as a professional web designer and has experience in user tracking, data analytics, and front statistical modeling.
